Styling:	Tailwind CSS, Bootstrap, Responsive & Mobile-First Design
React:	Hooks (useState, useEffect, useContext), Component Architecture, State Management
API & Data:	REST APIs, Fetch API, Axios
Performance & SEO:	Core Web Vitals, Lighthouse, Page Speed Optimization, SEO best practices
CMS / Backend:	Laravel Blade, WordPress
Tools:	Git, GitHub, Vercel, Hostinger, MilesWeb, Figma
Learning:	TypeScript, Redux Toolkit

EXPERIENCE

Fillip Technologies

May 2024 – Present

Frontend Developer

- Built and maintained **18+ production websites** across React.js and Laravel Blade stacks in education, healthcare, and e-commerce sectors
- Improved Lighthouse performance scores by **35 points on average** through lazy loading, image optimization, and bundle size reduction — directly improving Core Web Vitals
- Developed a **reusable React component library** (hooks-based) adopted across 4+ projects, reducing UI development time by ~30%
- Integrated **20+ REST APIs** using Axios/Fetch for dynamic data rendering across product listings, course data, and vendor discovery platforms
- Converted **10+ Figma screens** into pixel-perfect, cross-browser-compatible, and WCAG-accessible UIs
- Developed dynamic Laravel Blade frontend interfaces with API-driven content rendering
- Customized and maintained WordPress websites with responsive UI and SEO-friendly structure
- Ensured cross-browser compatibility (Chrome, Firefox, Safari, Edge) and mobile-first responsiveness across all projects

KEY PROJECTS

* Add live demo URLs and GitHub links to each project before sending your resume

Fillip Skill Academy

React.js · Tailwind CSS · REST API

Course discovery platform with real-time API-driven listings. Sub-2s load time via code splitting and component-level optimization.

Domus Cure

React.js · Tailwind CSS

Healthcare website with WCAG-accessible UI components. Mobile usability score improved from 68 to 91 via responsive layout overhaul.

Ramratan Jewellers (E-commerce)

Laravel Blade · Tailwind CSS · JavaScript

Dynamic product listing with API-integrated inventory. Responsive filtering UI reduced average product-find time for users.

Weddings72 — Vendor Discovery

Laravel Blade · Tailwind CSS

API-based dynamic content rendering for vendor listings across 10+ categories. SEO structure optimized for improved search visibility.

Sita Architectural Consultancy

React.js · Tailwind CSS

Modern business website with clean design, smooth navigation, and fast load times.

Collins Kids & Litera Valley School

Laravel Blade · Tailwind CSS

Responsive school websites with API-driven content, focused on accessibility and cross-device compatibility.
